Step 1

Select trusted entity

Step 2

Add permissions

Step 3

Review, and create

Select trusted entity

Select the trusted entity type.

AWS service

Allows AWS services like EC2, Lambda, or others to perform actions in this account.

AWS account

Allows entities in other AWS accounts belonging to you or a 3rd party to perform actions in this account.

Web identity

Allows users federated by the specified external web identity provider to assume this role to perform actions in this account.

SAML 2.0 federation

Allows users federated with SAML 2.0 from a corporate directory to perform actions in this account.

Custom trust policy

Create a custom trust policy to enable others to perform actions in this account.

Use case

Allow an AWS service like EC2, Lambda, or others to perform actions in this account.

Service or use case

Lambda

Choose a use case for the specified service.

Use case

Lambda

Allows Lambda functions to call AWS services on your behalf.

AWSServiceRoleForLambda

Allows Lambda to manage AWS resources on your behalf.
